FIVE YEARS AND \$500,000 OF GIVING

▶ The **Northeast Utilities Foundation** presented a check for more than \$100,000 to **Our Piece of the Pie**, the organization that oversees the foundation's PEAC program at the R.J. Kinsella School of the Performing Arts in Hartford. The five-year \$500,000 grant — now in its final year — has helped make significant improvements in the students' academic and personal lives and has helped Kinsella become one of the most improved public schools in Hartford. Pictured, from left, are: Chuck Shivery, chairman, president and CEO of **Northeast Utilities**; Robert Rath, executive director of **Our Piece of the Pie**; Pam Alvarado, principal, R.J. Kinsella School; and Patricia McCullough, president-elect and executive director of the NU Foundation. Looking on are several students from the R.J. Kinsella School.
